OPTIMAL DEFINITION: ONE SIZE DOES NOT FIT ALL

From a mobile user on a 3G cell phone to an engineering team communicating right from the factory floor, visual communication provides a powerful platform for bringing people together to share knowledge and speed decision-making.

Whether you need high-definition precision, enhanced definition clarity, business-quality performance or 3G mobility, TANDBERG Optimal Definition automatically selects the best video resolution for your bandwidth and application.

From HD applications where precision and detail are imperative to multipoint group meetings that demand better than business-quality video, Optimal Definition greatly improves the user experience, and gives you the highest quality visual experience — period.

THE BEST VIDEO RESOLUTION FOR THE BANDWIDTH AND APPLICATION

3G MOBILE
64K
QCIF

BUSINESS-QUALITY
128K–256K
CIF

ENHANCED DEFINITION
384K–768K
448P

HIGH-DEFINITION
1MB AND ABOVE
720P

3G MOBILE: Video calls over 3G mobile devices for applications such as emergency response, remote assessments, field trouble-shooting, or meetings on the go.

BUSINESS-QUALITY: One-on-one or group video calls for general applications such as impromptu meetings and collaboration.

ENHANCED DEFINITION: Robust one-on-one or group video calls for team meetings, sales calls, customer interaction and sharing multimedia presentations or materials.

HIGH-DEFINITION: Visual detail and clarity for applications such as product development, medical consultation, and executive management.

BENEFITS OF OPTIMAL DEFINITION:

- Full spectrum of video resolutions for all applications
- Improved visual experience across all resolutions
- Automatically selects the best resolution for your needs, optimizing network resources
